

INTRODUCING ALREADY SEALED PIPE BY GRAY METAL SOUTH

Why wait for them to catch up?
They're still using tape!

STANDARD
ON EVERY READY TO SEAL PIPE
at no additional cost

The new Gray Metal South
pre-applied sealant along
the entire length

ALREADY SEALED PIPE...LIKE NO OTHER

Already Sealed Pipe is created by applying duct sealant along the entire length of the pipe in the female side of the button lock. It eliminates the need for tape or brushed sealant along its entire length.

- Already Sealed Pipe is available on all sizes and gauges up to and including 20" diameter.
- Already Sealed Pipe saves time and money on installations.
- Already Sealed Pipe creates an air tight seal.
- Already Sealed Pipe meets or exceeds SMACNA seal classes A, B, and C.
- Already Sealed Pipe meets or exceeds SMCNA pressure classes ½, 1, 2, 3, 4, 6, and 10 w.g.
